

PROJECT: Chêne Gear Flagship Store

LOCATION: Stuttgart, AR

SIZE: 19,400 SF

PROJECT TYPE: Commercial

GENERAL CONTRACTOR: Clark Construction

ROOF PANELS: Ultra-Lok

WALL PANELS: PBM

OVERVIEW:

Chêne Gear's flagship store provides a showcase for its premium hunting gear and a gathering place for outdoor enthusiasts. ACI supplied the clear-span steel building package, creating an open, flexible showroom while incorporating covered exterior areas and specialized structural framing to support the store's distinctive wood and steel architectural features.

FEATURES:

- 80-foot clear span with 20-foot eave heights
- Four sidewall canopy sections totaling 3,195 sq. ft.
- Structural supports for custom wood and tube steel features
- UL 90 roof system with R-30 insulation in specified areas
